

## Now Hiring!

Posted: July 28, 2022

Hi Project Managers,

I have a potential new client that is looking for a technical Project Manager with Agile experience, 10-20 hrs/week, working with me as a contractor through my company. Mid-Aug or sooner start, potential long-term contract, prefer ROC based, but not required.

If you are interested or know of anyone that might be, please contact me!

Thanks,  
John
